EXPERIENCE

Web Developer

DIGITAL & SOFTWARE SOLUTIONS LTD

11/2024 - Present Sofia, Bulgaria/Remote/

Company Description

- Developed scalable, responsive web applications using Angular and PrimeNG.
- Built robust RESTful APIs and backend services with NestJS, supporting complex business logic.
- Designed and maintained PostgreSQL databases, ensuring performance and data integrity.
- Containerized applications with Docker for efficient development and deployment workflows.
- Wrote clean, maintainable code and collaborated cross-functionally to deliver end-to-end solutions.

JavaScript Developer

Arte Soft Ltd

11/2022 - 10/2024 Sofia, Bulgaria/Remote/

Key Responsibilities

- Developed dynamic user interfaces using Angular + Angular Material and React/Next.js.
- Maintained and enhanced backend services with Node.js/Express and managed data with MongoDB/Mongoose.
- Delivered custom designs and tailored software solutions based on client requirements.
- Debugged and refactored legacy codebases to improve performance and maintainability.
- Worked within Agile teams, contributing to consistent and timely delivery.

Junior Software Developer

DSD Code

06/2021 - 10/2022 Burgas/Remote/

Key Responsibilities

- Built full-stack applications with React/Angular on the front end and Node.js/Express on the back end.
- Created responsive, cross-browser static pages using HTML/CSS.
- Improved collaboration and workflow through effective use of Git and version control.
- Participated in debugging, troubleshooting, and project planning to support smooth delivery.

EDUCATION

Programming courses

CS50, several IBM courses, SoftUni JavaScript Path, and others.

2019 - 2021

Master's degree

Sofia University St. Kliment Ohridski

01/2010 - 12/2015

SUMMARY

As a passionate and dedicated Software Developer, I specialize in building scalable, user-focused web applications across the full stack. With strong experience in Angular, React, NestJS, and Node.js, I combine clean architecture, modern best practices, and continuous learning to deliver reliable, high-quality solutions. I thrive in collaborative environments and enjoy transforming complex requirements into efficient, maintainable, and intuitive digital products.
